Department of Human Genetics

Center for Human and Clinical Genetics

Next Generation Sequencing (NGS) Data analysis

Who:

- PhD students, postdocs, and senior researchers who are interested in, planning, or already working with next-generation sequencing.
- We welcome researchers from both the genomics and bioinformatics fields.

What:

- Currently available technologies.
- Hardware and software solutions will be presented and discussed.
- The focus of the course will be on the data and ways to analyse these.

Outline of what will be covered

Day one:

- The technologies, their output, and technology-related problems.
- General Data Analysis.

Day two:

- Things to Know and Specific Applications I.
- Computer Practicals.

Day three:

- Things to Know and Specific Applications II.
- Computer Practicals.

Registration

If you want to register, go to:

<https://www.molmed.nl/>

There is only room for 60 people.

Registration closes Sunday July 1st.

Academic participants pay €250. Commercial participants pay €500.

Organised by:

- Molmed (Frank van Vliet).
- MGC (Madeleine Nivard).
- LUMC (Jeroen Laros).
